

**FOR PROFESSIONAL OR INDUSTRIAL USE ONLY
HOLD CAN UPRIGHT, DO NOT INVERT OR SHAKE CAN DURING USE
*SPECIALLY FORMULATED WITH NO FLAMMABLE ELEMENTS**

A high pressure, ultra pure, moisture-free gas for removing microscopic dirt, dust, iron oxide deposits, lint and paper from: Camera lenses, scientific equipment, disk drives and cartridges, timing devices, instruments, electro-mechanical devices, film, magnetic tapes, heads and card strip pickup units, optical pickups, computer printers, fax machines, copiers, and more.

**FEATURES A FINGER-FRIENDLY BUTTON WHICH
HELPS REDUCE FINGER TIP CHILL AND FATIGUE.**

DIRECTIONS: Keep can in an upright position. Hold can 2 inches from surface to be dusted. Operate in a series of short blasts. For pinpoint application, insert extension tube into actuator orifice. Do not tilt, invert or shake can. Tilting or inverting will dispense contents as a liquid. Liquid can cause frostbite.

MADE IN THE
U.S.A.

NOTE: Contact with product in liquid form may cause plastic materials to permanently discolor. Do not use on camera mirrors.

CAUTION: HIGH PRESSURE, DO NOT STORE IN VEHICLES INTENTIONAL MISUSE BY INHALING CONTENTS CAN BE HARMFUL OR FATAL. Contains 1,1,1,2-tetrafluoroethane (811-97-2). Contents under pressure. Do not puncture or incinerate container. Do not store near heat or open flame. Exposure to temperatures above 120°F may cause bursting. USE ONLY WITH ADEQUATE VENTILATION. Inhalation of high concentrations of vapor is harmful and may cause heart irregularities, unconsciousness or death.

For further information consult
Material Safety Data Sheet.

**KEEP OUT OF REACH
OF CHILDREN**

FIRST AID: IF EYE CONTACT: Rin case of contact, immediately flush with large amounts of cool running water for at least 15 minutes while holding upper and lower lids open. Call a physician. IF SKIN CONTACT: In case of contact, immediately flush skin with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Call a physician. Treat for frostbite if necessary by gently warming affected area. Wash contaminated clothing before reuse. EXCESSIVE INHALATION: If high concentrations are inhaled, immediately remove to fresh air. Keep person calm. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician. IF INGESTED: Ingestion is not considered a potential route of exposure.
