

AIR DUSTER

HOLD CAN UPRIGHT ONLY. DO NOT SHAKE CAN DURING USE.

A high pressure, moisture-free gas for removing microscopic dirt, dust, lint, iron oxide deposits, and paper that normal hand dusting cannot reach. Attach tube to reach remote cracks and crevices. Plastic safe, non-abrasive and leaves no residue. Safe on sensitive components and most finishes. **DO NOT USE ON CAMERA MIRRORS.**

For use on computer printers, fax machines, copiers, scientific equipment, disk drives & cartridges, timing devices, electromagnetic devices, magnetic tape, heads and card strip pickup units, optical pickups, clean rooms, data processing, electronics, photographic laboratories, and automotive. Features a finger friendly trigger which eliminates finger chill and fatigue.

DIRECTIONS:

Read entire label before using this product.

1. Turn off all electrical equipment prior to product use. 2. Prior to use, tear off safety tab. 3. Use only in upright position. Do not shake during use. 4. Hold can approximately 2 inches from surface to be dusted and pull trigger. 5. Operate in a series of short blasts. 6. Insert tube into actuator for pinpoint application. 7. Allow equipment to vent before re-energizing. Do not tilt, invert, or shake can during use. This will disperse liquid which is flammable. The liquid may catch fire if exposed to flame, spark, or electrical contact or other ignition source. Hold can upright only. Do not shake can during use.

MADE IN THE U.S.A.

WARNING: Vapor harmful. Contains 1,1,1-Difluoroethane (75-37-8). This product is not defined as a flammable gas, however using the can in an upside down position or shaking during use will allow liquid to be dispensed. The liquid may catch fire if exposed to flame, spark, or electrical contact and other ignition sources. Do not puncture, incinerate, or store can above 120°F. Exposure to high temperature may cause can to burst. Do not place in direct sunlight or near any heat source. Product will decompose in contact with flames and/or red hot metal surfaces to release toxic and corrosive by products. Overexposure can cause drowsiness, unconsciousness, respiratory depression, and death. Deliberate misuse by concentrating and inhaling the contents can be harmful or fatal. Use with adequate ventilation. Open doors or windows or use other means to ensure fresh air supply during use and while product is drying. If you experience any symptoms listed on this label, increase ventilation or leave the area. Do not use while smoking. Vapors are heavier than air and can collect in low areas.

Use in a well ventilated area. Do not use on energized equipment. Do not spray into enclosed spaces, such as inside of paper shredders, printer cases, small cabinets, or within small enclosures such as small closets or dark rooms as vapors may exceed safe levels.

ELECTRIC SHOCK HAZARD: This can will conduct electricity. Do not touch can to live electrical sources including battery terminals, solenoids, electrical panels, and other electrical components. Failure to observe this warning may result in serious injury from flashfire or electrical shock.
