

TERAND

The Maintenance Professional's Choice

BATTERY TERMINAL PROTECTOR

72314

FOR USE BY:

- Auto Garages • Golf Courses
- Warehouses • Fleet Service
- Hotels • Country Clubs
- Ship Yards • Marinas

- Easy to Apply • Prevents Corrosion
- Helps Ensure Maximum Power Output
- Curtails Power Leakage
- Flexible, Non-Tacky, Non-Chlorinated

A special, non-tacky, flexible coating that provides long term corrosion protection for battery terminal posts, housings, cables ends, and supports. Curtails leakage and extends battery life. Prevents superior acid-alkali resistance. Protects batteries in storage or in use.

FOR USE ON:

- Autos • Boats • Trucks
- Fork Lifts • Golf Carts
- Storage Batteries

- Provides an Airtight Waterproof Seal
- Extends Battery Life
- Coating will not Crack or Peel even under Severe Flexing
