**NSF**

Nonfood Compounds  
Program Listed A8  
139444

This product is acceptable as a degreaser or carbon remover for food cooking or smoking equipment, utensils, or other associated surfaces (A8) in and around food processing areas, where its use is not intended for direct food contact.

**SUITABLE FOR USE IN MEAT & POULTRY PLANTS AND FOOD & FOODSERVICE ESTABLISHMENTS**

**USE ON:** Stoves, ovens, grills, racks, fryers, and exhaust fans.

Removes grease, grime, carbon build-up, soot and cooking spills. Improved cleaning action with less fuming and a mild citrus aroma.

**DIRECTIONS** — Works Faster on Oven Preheated to 200°F. Turn Off Electric Current or Gas Pilot Light Before Use. Protect floors and exterior cabinet trim from overspray. Remove and clean racks separately. Wear gloves. Shake well. Spray at a distance of 8 to 12 inches. Allow foam to stand 5 to 10 minutes. Allow longer for cool oven. Wipe clean and rinse thoroughly with potable water.

**PRECAUTIONS:** Avoid contact with asphalt, tile, linoleum, copper, painted surfaces or aluminum. (Exterior trim is frequently polished aluminum, not chrome or stainless steel). These areas should be protected. Do not allow spray to penetrate electrical connections.
