The Maintenance Professional's Choice

## MOISTURE DISPLACER

21612

A non-flammable, penetrating spray that creeps under and displaces moisture in wet electrical systems. Helps restore correct current flow. Provides a thin, waterproof film which inhibits corrosion and prevents short circuits and electrical discharge. Safe to spray on running or energized electrical equipment. Includes extension tubes.

#### FOR USE BY:

- Auto Mechanics • Servicemen
- Utility Companies • Marine Repair
- Industrial Plants • Refineries
- Heavy Equipment Companies
- Railroads • Trucking • Shipping
- Oil Fields • Construction

#### FOR USE ON:

- Electrical Equipment • Tools
- Engine Parts • Motors
- Bearings • Gears • Relays
- Starters • Generators

- Demoisturizes & Creates a Waterproof Film that Helps Inhibit Corrosion & Electrical Discharge
- Penetrates Through Water
- Locks Out Moisture

- Protects Against Atmospheric & Chemical Corrosion
- Restores Electrical Current to Water Damaged Equipment
