

TERAND

The Maintenance Professional's Choice

ADHESIVE SPRAY

92012

SUITABLE FOR:

- HVAC Insulation
- Automotive Headliners
- Packaging / Shipping / Labeling / Carton Sealing
- Asbestos Abatement
- Cabinetry / Carpeting
- Adhering Decorative Laminate to Particleboard and MDF (Medium Density Fiberboard), Substrates, Metals and Plywood.

Recommended for decorative laminate to particleboard and MDF (medium-density fiberboard) substrates, metals and plywood. A webbing type spray pattern that is water white and does not contain Methylene Chloride. Its unique formula prevents soak-in of the adhesive on porous surfaces. It offers the user very high coverage with a fast tack time for general purpose bonding of a wide variety of substrates, such as cardboard, foam rubber, insulation material, rubber, urethane foam, laminates and more.

- High Solids • High Strength
- Fast Tack • Waterproof
- Provides both Temporary and Permanent Bonds

VOC INFORMATION:
California ARB Consumer Products Category:
Web Spray Adhesive.
VOC Standard = 55.0%. This product complies
with current applicable CARB standard.
