The Maintenance Professional's Choice

BATTERY TERMINAL CLEANER and PROTECTOR

89018

FOR USE BY:

- Municipalities • Truck Lines
- School Bus Yards • Marinas
- Fleet Operators • Golf Courses
- Vehicle Rental Companies
- Auto Repair Shops

A neutralizing cleaner with an acid-alkali indicator. Removes corrosive build-up on battery terminal posts, cables and clamps. Helps increase power output and extend battery life. Leaves a short term residual protective film on cleaned surfaces. Can be wiped or flushed off with water.

FOR USE ON:

- Boats • Buses • Taxis • Aircraft
- Golf Carts • Tractors • Trailers
- Postal Vehicles
- Fork Lifts • Battery Backup Systems
- Construction, Agricultural and Marine Equipment

- Helps Prevent Corrosion
- Neutralizes Acid
- Reduces Current Leakage Caused by Dirt and Corrosion Deposits

- Provides Acid-Alkali Indicator
- Extends Battery Life Increases Power Output
- Non-Flammable
- Level-1 Storage Rating
