

ELECTRONIC MAINTENANCE

A premium line of cleaning
and maintenance products
for sensitive electronic
equipment and components

A premium line of cleaning and maintenance products for sensitive electronic equipment and components

24106 ELECTRONIC PARTS CHILLER

Moisture free, high purity, non-flammable, freezing agent for electronic testing and shrink fitting applications. Useful for freeze testing to help spot faulty electronic circuit parts. Odorless, high pressure spray leaves no residue. Includes extension tubes for easier application to remote areas.

24208 AIR DUSTER NON-FLAMMABLE

High pressure, moisture free, dusting aid that blows microscopic dirt, dust, and other contaminants from sophisticated electronic parts. Excellent for hard-to-reach areas. Ozone safe formula is completely non-flammable. Includes extension tubes for easier application to remote areas.

24410 AIR DUSTER

A high pressure, moisture-free gas duster that is non-flammable when used as directed. Excellent for removing microscopic dirt and dust. Attaching tube enables reaching remote cracks & crevices. Plastic safe, non-abrasive, and leaves no residue. Use on electronic and high tech gear, and many other components.

80711 CONTACT CLEANER 2

Quick-drying, high-purity formula evaporates rapidly and leaves no residue. Safe for use on most plastics and paints. Increases performance, prolongs equipment life and prevents electrical failures by dissolving light oils, flux, dirt and fingerprints on contacts, relays, switches, circuits and pc boards.

21612 MOISTURE DISPLACER

Non-flammable, penetrating spray that creeps under and displaces moisture in wet electrical systems. Cleans away corrosion to help restore correct current flow. Provides a waterproof film that protects parts and prevents moisture induced short circuits. Safe to spray on running electrical equipment.
