

TERAND

The Maintenance Professional's Choice

CONTACT CLEANER

80611

FOR USE BY:

- Computer Services • Military
- Industrial & Automotive Plants
- Audio Visual Departments • Avionics
- Gaming Industry • Robotics • Offices
- Municipalities

A high purity solvent that removes oil, grease, flux and other contaminants from electrical parts, relays, switches, contacts, motors, controls and more. Dries quickly, residue free. Safe for use on plastics. Flammable solvents require the material to be used on equipment that does not have electric current flowing. Includes extension tubes.

FOR USE ON:

- Circuit Boards • Terminals
- Relays & Switches • Contacts
- Circuit Breakers • Rheostats
- Potentiometers • Tuners • Control Panels
- Motors • Electrical Equipment
- Audio Video Recording Equipment

- High Purity Solvent Cleaner
- Removes Dirt, Grease, Flux, Fingerprints and Oily Contaminants from Contacts, Switches, Relays, Tape Heads, Turners, Solenoids, Motors, and Controls

- Quick Dry Formula
- Dries Fast, Residue Free
- Plastic Safe, Electrical Grade
