

A00367 Safety Solvent 2000

Cleaners & Degreasers

Features

- Fast Dry Nonflammable Brominated Formula
- Leaves No Residue & Dries Fast
- Dual Action Spray (Mist/Blast)
- Nonconductive to 18,000 volts
- Not Recommended for Prolonged Contact with Plastic

Description

This advanced nonchlorinated, electronic/electrical cleaner contains no known or suspected carcinogens, ozone depleters or materials subject to regulation under SARA 313, NESHAP, HAP, or RCRA and meets MIL-C-28809, and MIL-STD-2000. The unique formula provides powerful cleaning action and fast evaporation while remaining both non-flammable and non-conductive. In addition, the product is safe for short-term contact (normal aerosol spray use) on a wide variety of component plastics including HDPE, LDPE, polypropylene, phenolics, polyester, nylon, neoprene, natural rubber, and more. The low odor formula leaves no residue and is compatible with many metals including most types of steel, galvanized steel, brass, copper, magnesium, nickel, tin plate, titanium, and zinc. This product is also an excellent contact and circuit board cleaner for removing deposits such as flux and ionic residues after soldering and the special dual action valve system enables both a misting spray for broad area cleaning and a blasting spray for hard to reach areas and extra deposit removal power.

TECHNICAL INFO:		
Physical Properties	Appearance	Clear Spray
	Color	None
	Odor/Fragrance	Solvent
	pH	N/A
	Spray Pattern	Mist/Stream
Environmental Profile	Glycol Ether Content	No
	Biodegradability	No
	Chlorinated Solvents	No
	Green Status	None
	Recyclable Packaging	Yes
Regulatory Compliance	% VOC By Weight	94.1
	VOC Restricted Regions	CA
	Food Processing Suitability	N/A
	EPA #	N/A
	Flammability per CPSC	NCAF
	NFPA Code 30B Storage Level	1
