

# ONDAS

Ornamental Next-Gen Durable Anti-Slip System  
Safe Step Anti-Slip Surface

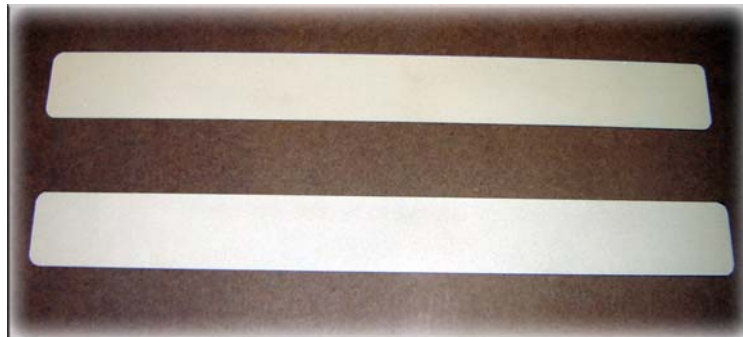

**ONDAS** is an ornamental anti slip safety system designed for floor installation in high-traffic areas, both inside and outside. This durable anti-slip surface is built into an aluminum platform with aluminum oxide particles (**180 microns- 80 grit**) distributed in to a polyolefin matrix. It can be easily attached to existing stairs, walkways, boat decks, factory floors, restaurants, hotels, machinery and handicap ramps as well.

Adding beauty and safety **ONDAS** systems are a colorful and highly durable solution. Our uniquely engineered system assures a long-life anti-slip surface that holds up the heaviest traffic. **ONDAS** can be easily anchored or epoxy bonded into cement, steel or wood surfaces. Other quality features designed with beauty and durability in mind include:

- **10 vibrant standard colors: Black • Gray • Yellow • Beige • Blue • White• Burgundy • Brown • Green • Red**
- **Aluminum platform with 12mm aluminum oxide/polyolefin coating.**
- **Chemical resistant and UV stable**
- **Non-porous surface for easier cleanability**
- **Meets A.D.A. Standards**
- **180 days manufacturer warranty for defects in craftsmanship**
- **Made to order to your size specifications**
